Polysheet Structure

Why Collateral funding getting preference ?

Benefits

- Speedy loan sanction and disbursement with minimum documentation
- No additional security other than Agricultural commodities
- Attractive rate of interest as low as 6.9%
- Speedy release of commodities after repayment of dues
- Loans available at non-branch locations also
- Loans extended in government/private warehouses
- Liquidation of stock is easy in case account turns NPA.

Loan Disbursement Process

- Contact bank
- Submit the requisite documents
- The limit is then set up on the basis of your eligibility
- Stock the commodity in the designated warehouse and submit warehouse receipts along with disbursement documents
- Loan is disbursed upon receipt of digital Storage Receipts

Risk in Collateral Funding

Duration of funding:

- For agro commodity funding should ideally be between 6- 9 months and extension to be purely based on quality status.
- Avoid extending loan on commodities with life shorter than 3 months

Geography/ Location of Storage:

- For agro commodities loan should be extended on commodities deposited either in cultivation or trading zones, else liquidation will be difficult if account turns NPA.
- Due to locations scattered across geographies monitoring of operations is a challenge.

Pricing & Margin:

- Assessment of commodity price should be in context to the quality assessment of that particular lot and not FAQ price.
- Pricing to be regularly monitored so that prompt margin call initiated in situation of commodity price fall.

Risk in Collateral Funding

Quality of Goods:

- Technically trained staffs required to assess quality of goods while deposit and during storage.

Fidelity:

- Being manpower intensive, risk of fidelity cannot be ruled out, sufficient fidelity coverage should be in place.
- CM should be aware of any negative news of borrower, because stress leads to fraud.

How SLCM can add value

- Provide its technology enabled “Agri reach Module” for implementation and management of day to day warehousing operations.
- Provide well articulated and proven Standard Operating procedures for warehousing and collateral management.
- Provide on field training of warehouse management to people.
- Provide one of its kind mobile application for quality assessment.

So Let's Change Minds

GROUP OVERVIEW

The Complete Supply Chain

COMMODITY WAREHOUSING

- Warehouse Mgt. for Leading Derivative Exchanges, Farmers, Govt. of India, Processors & Traders
- Silos Management
- Quality & Quantity Testing
- Fumigation & Auditing Services
- Mgt. on inter-model transfer
- Fleet Management
- End-to-End Logistics
- Assaying Services
- Rail Rake Movement

AGRI FINANCING

- Competitive Interest Rate
- Large basket of Commodities
- Priority Sector Lending
- Enabling Agri to become a monetized asset

SLCM GROUP

COLLATERAL MANAGEMENT

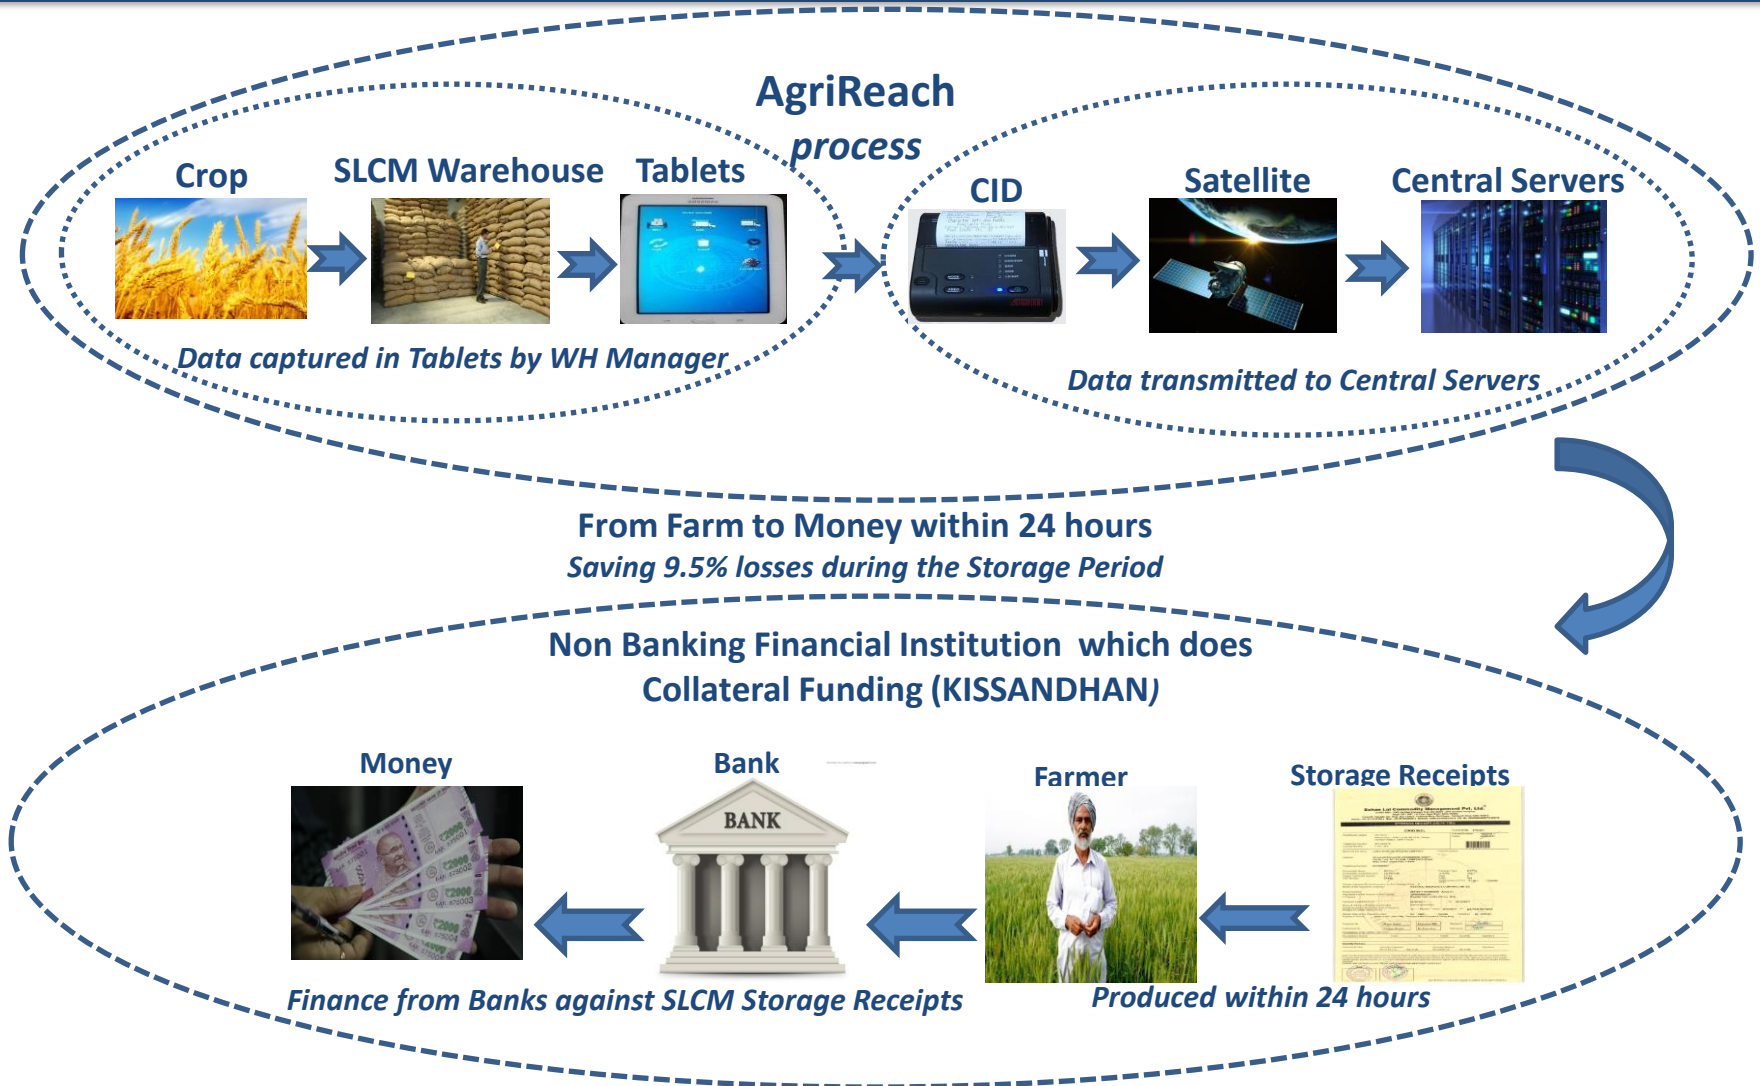

- Collateral Management for Banks & Other Financial Institutions
- Risk Mitigation System for Traders, Processors & Farmers
- Quality & Quantity
- Fumigation

PROCUREMENT

- Direct Procurement from Farmers, Processors, Govt. bodies & Traders
- Research & Analysis
- Cover need of 'Just in Time' inventory
- Crop behavior patterns

SLC Agri Reach – Technology Platform

MOBILITY APPLICATION

Mobile application development is a term used to denote the act or process by which application software is developed for handheld devices, such as personal digital assistants, enterprise digital assistants, mobile phone or tablets. These applications can be pre-installed on phones during manufacturing platforms, or delivered as web applications using server-side or client-side processing to provide an "application-like" experience within a Web browser or Mobile App.

MODULES OF MOBILITY APPLICATION

Module 1 : Commodity Inward Document (CID)

Module 2 : Commodity Outward Document/Stock Discharge Receipt (SDR)

Module 3 : Quality Certificate (QC)

Module 4 : Warehouse Seal Record

Module 5 : Handing Taking Over (HTO)

Module 6 : Supervisor Report

Module 7 : Warehouse Weekly Performance and Crop Report

Module 8 : SMS Delivery Order

Module 9 : Stock Transfer

Module 10 : Mobile Attendance

So Let's Change Minds

AgriReach: Implementation Kit

- **Kit Size:** 18x11x10 inches
- **Weight:** 24.25 pounds/11.5 kilos
- **Contents:** 60 items
- **Despatch Time:** Within 24 hours to the location irrespective of the Crop, Climate and Geography of the location
- **Additional requirement for international operations:** Local SIM card

The most user friendly composition bound to sustain huge impacts on the entire Agri Ecosystem

Agri Reach Audits

So Let's Change Minds

Weekly Audits

Physical verification of warehouses

Reconciliation of stock count, assessment of crop health

Stock count & warehouse status report

Physical stock count by warehouse managers matched with stock records of the audit team

Aeration audit

Warehouses aired out for a period of 5 days in a week for a minimum of 5 hours each day

Crop health audit

5% of the total stock is poked in each lot to check for any live insects, attestation, etc.

Sample seals audit

Warehouses are sealed daily with a unique code

Fortnightly Audits

Handing-over audit

Detailed procedure for handing-over followed as warehouse managers are rotated across

Broken seal audit

Broken seals at warehouses are recalled at the head office to check the authenticity of reporting
