

## **ABOUT IFC**

IFC, a member of the World Bank Group, is the largest global development institution focused on the private sector in developing countries.

Established in 1956, IFC is owned by 184 member countries, a group that collectively determines our policies.

With a global presence in more than 100 countries, a network of nearly 1,000 financial institutions, and more than 2,000 private sector clients, IFC is uniquely positioned to create opportunity where it's needed most.

We use our capital, expertise, and influence to help end extreme poverty and boost shared prosperity.

## LEADERSHIP PERSPECTIVE

## A Letter from

IFC Executive Vice President and Chief Executive Officer Jin-Yong Cai

These are challenging times for developing countries. Economic growth remains lackluster, despite the brightening outlook in wealthier countries. Job creation remains insufficient to absorb the growing numbers of young people entering the workforce. In many countries, the basic infrastructure necessary for sustained prosperity—power grids, schools, banks—remains woefully inadequate.

At IFC, we are stepping up our efforts to deliver lasting solutions. As the largest global development institution focused on the private sector, we take a comprehensive approach—enabling businesses to innovate, to fully leverage the benefits of modern technology and infrastructure, to build internationally competitive industrial sectors, and to expand opportunities for people to find good jobs.

Over the past year, IFC achieved significant development impact—in some of the world's most challenging environments. With our support, more than 2,000 IFC clients—located in every region of the world—provided about 2.6 million jobs, distributed power, water, and gas to more than 94 million customers, and distributed more than \$300 billion in loans to micro, small, and medium enterprises. They helped treat more than 27 million patients and educate about 2.5 million students.

We provided a record amount of financing for private sector development in the world's poorest countries—nearly \$8.5 billion in all, including funds mobilized from other investors. These countries accounted for half of the nearly 600 projects we began during the year. Our annual investments in fragile and conflict-affected areas have climbed 20 percent over the past two years—to nearly \$950 million, including funds IFC mobilized from other investors.

Globally, we invested more than \$22 billion in about 100 developing countries, including about \$5 billion mobilized from other investors. And we did so in ways that made IFC more financially sustainable. Our investments have demonstrated that commercial and developmental success are mutually reinforcing—even in the most challenging areas. Our consistent investment results have enabled us to provide significant financing—more than \$2.8 billion since 2007—for the World Bank's International Development Association, which provides grants to the poorest countries.

Fiscal year 2014 also was a strong year for our advisory services, which did two-thirds of its work in IDA countries, including almost 20 percent in fragile and conflict-affected areas, and achieved record development-effectiveness and client-satisfaction ratings. We delivered an increasing number of client solutions that involved a combination of investment and advice—nearly 160 new advisory engagements with investment clients, marking an increase of almost 80 percent over the previous year.

IFC Asset Management Company continued to grow, increasing its assets under management to more than \$6 billion across six investment funds with a strong mix of reputable investors. In FY14 it completed fund-raising for the IFC Global Infrastructure Fund, raising \$1.2 billion. It also completed fund-raising for the IFC Catalyst Fund, raising \$418 million for climate-smart investments.

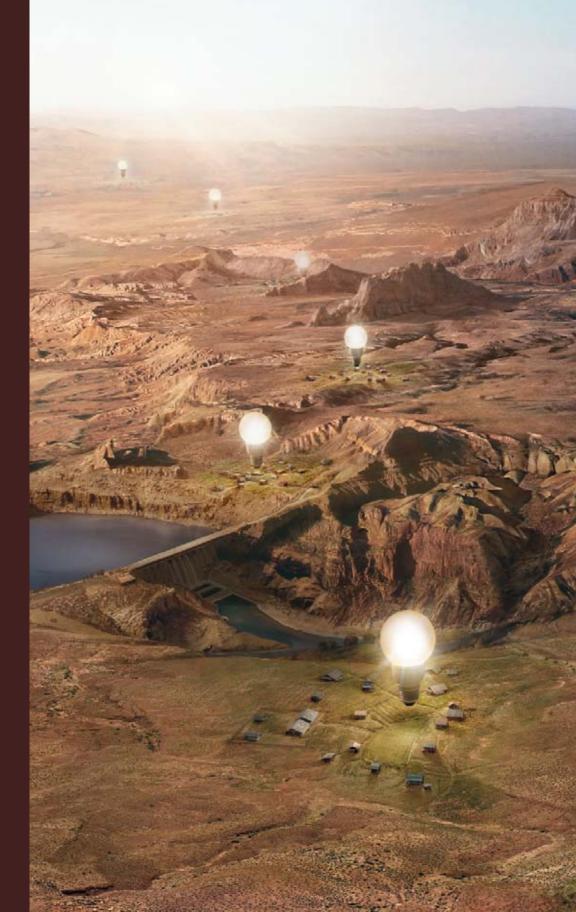

Big challenges demand big solutions. As we move ahead, I am convinced that IFC can deliver even more impressive results—by deepening our engagement with clients, by bringing to bear the full range of capabilities available in the World Bank Group, and by focusing on activities with the greatest potential to end extreme poverty and boost shared prosperity.

JIN-YONG CAI IFC Executive Vice President and Chief Executive Officer

# **BIG CHALLENGES DEMAND BIG SOLUTIONS.**

Every year, an untold number of entrepreneurs in developing countries see their business fail because capital is scarce and expensive. Millions of young people can't find a job—because their education hasn't prepared them for the needs of the market. Countless small companies struggle to expand. These are obstacles that must be overcome if we are to end extreme poverty and boost shared prosperity in every developing country. It cannot be done without the creativity and resources of the private sector—the main engine of global economic growth and prosperity. That is where IFC comes in.

As the largest global development institution focused on the private sector, IFC works closely with businesses in developing countries to help them succeed in ways that promote prosperity for all. In doing so, we bring to bear all of the expertise and resources of the World Bank Group. Together, we help countries establish a robust foundation for development—by putting in place the physical, social, and financial infrastructure necessary for sustained prosperity.

**Big** Challenges

**Big** Solutions

...businesses need technology infrastructure

### OUR FOCUS: TECHNOLOGY

Modern information and telecommunications technologies make it easier for the poor to obtain access to services and resources. These technologies expand opportunity and make markets and institutions more efficient. IFC works to extend their availability.

### OUR FOCUS: AGRICULTURE

ANT

Agribusiness is a priority for IFC because of its potential for broad development impact and strong role in poverty reduction. We combine investments with advisory services to help this sector meet the growing demand for food in environmentally sustainable and socially inclusive ways.

To grow more food... ...businesses need modern methods of production

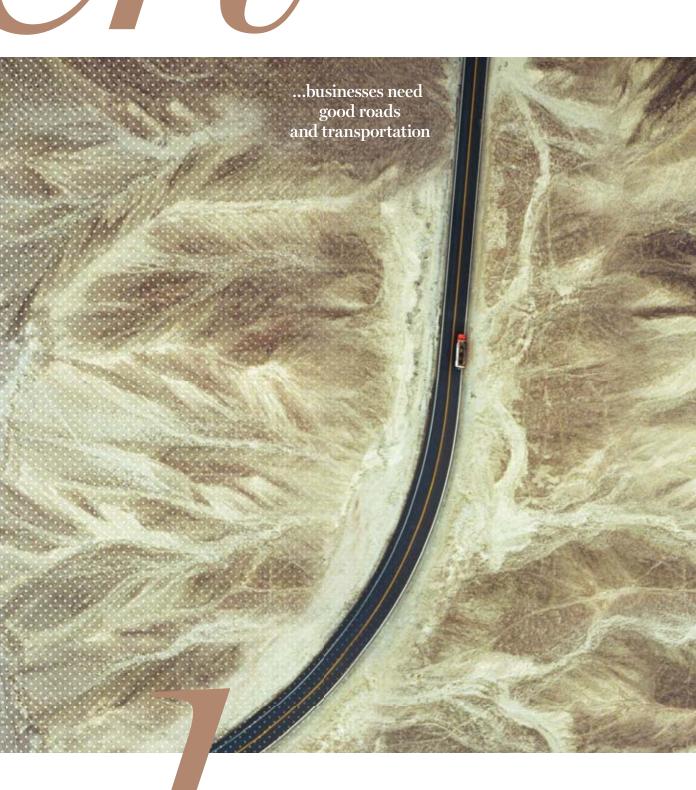

To reach new customers...

## **OUR FOCUS: INFRASTRUCTURE**

Efficient infrastructure spurs economic growth, improves living standards, and can help address challenges such as urbanization and climate change. IFC helps increase access to power, transportation, and water by financing projects and advising governments on public-private partnerships.

To expand...

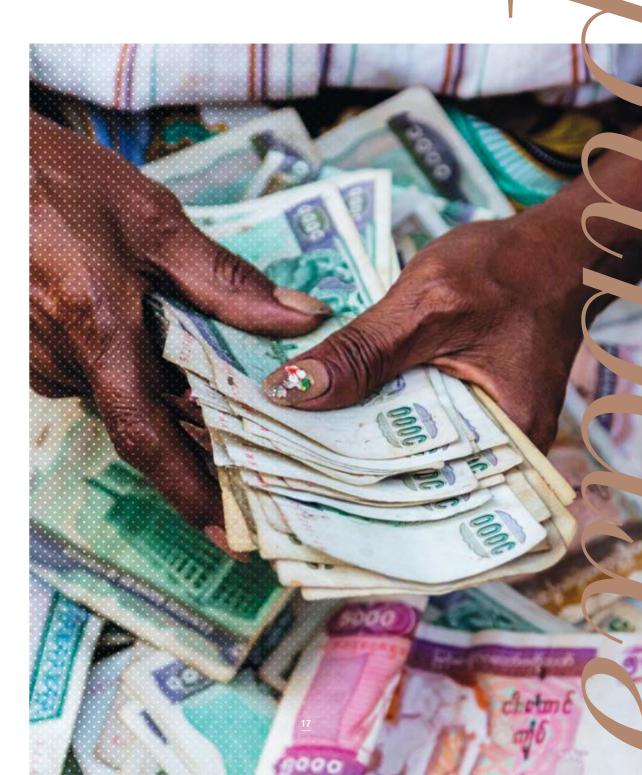

### OUR FOCUS: ACCESS TO FINANCE

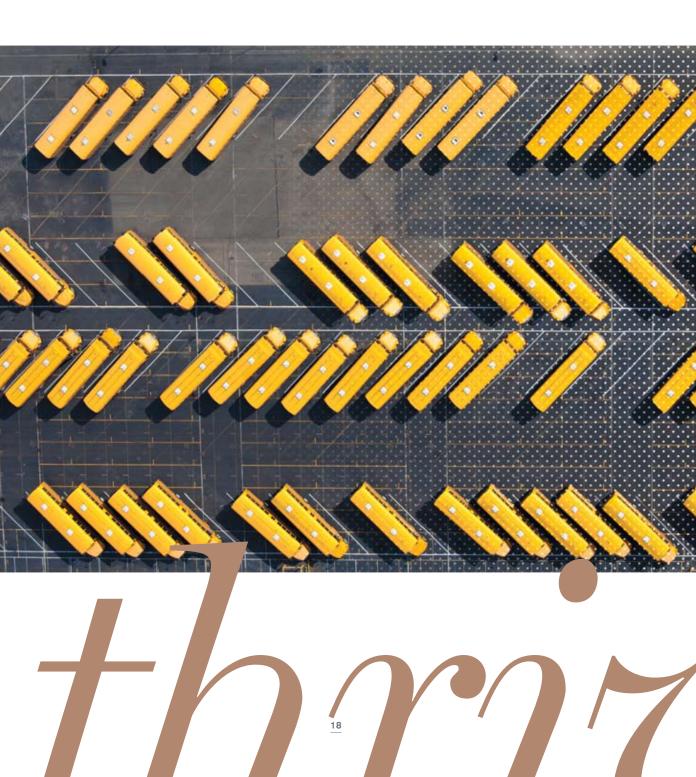

Sound, inclusive, and sustainable financial markets are essential to end poverty and boost shared prosperity—they create opportunity for individuals to succeed and for businesses to grow and create jobs. IFC works to increase the availability and affordability of key financial services such as credit, savings, and insurance.

IFC Annual Report 2014

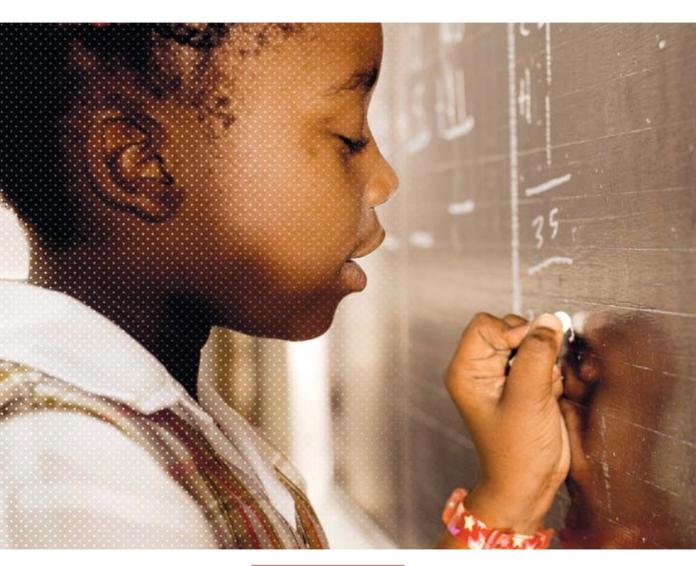

...businesses need greater access to finance

To thrive...

...businesses need an educated and healthy workforce

### **OUR FOCUS: HEALTH CARE & EDUCATION**

Health and education are fundamental to human development—and therefore a central element in any strategy to end poverty and reduce inequality. IFC supports clients that deliver high-quality services to low- and middleincome people.

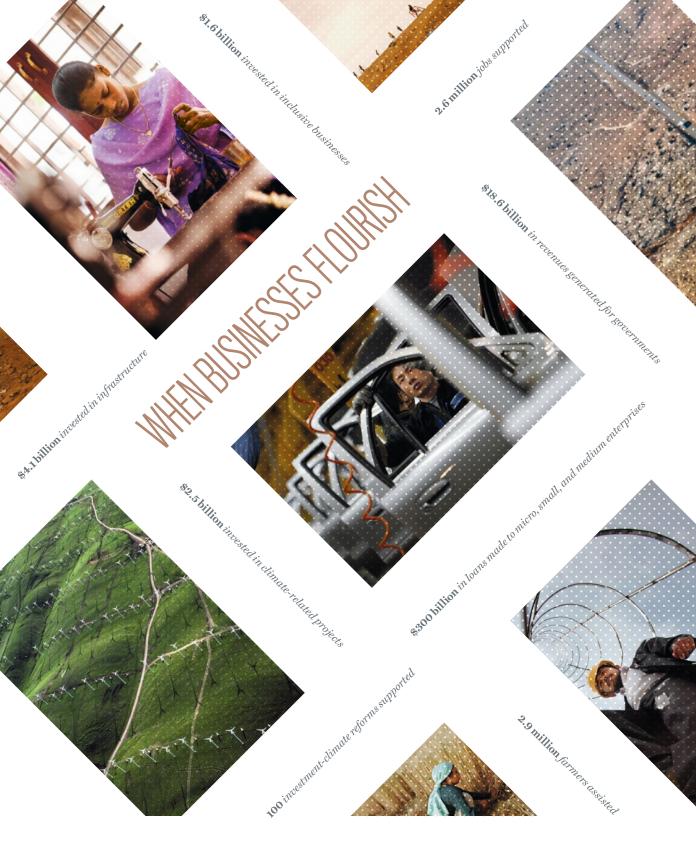

## OUR FOCUS: SUSTAINABILITY

In a time of climate change, scarcity of resources, and rising social pressures, businesses need to adopt sound environmental, social, and corporate governance practices. IFC helps clients in this process, encouraging transparency and accountability. ...businesses need to adopt sustainable practices

## OUR MANAGEMENT TEAM

Our seasoned team of executives ensures that IFC's resources are deployed effectively, with a focus on maximizing development impact and meeting the needs of our clients. IFC's Management Team benefits from years of development experience, a diversity of knowledge, and distinct cultural perspectives—qualities that enhance IFC's uniqueness. The team shapes our strategies and policies, positioning IFC to help improve the lives of more poor people in the developing world.
